ABOUT

Covering the key areas of electronics and communications technology

Dataweek provides relevant insights into all areas of electronics and communications technology.

- Analogue, mixed signal, LSI
- Circuit & system protection
- Computer/embedded technology
- Design automation
- Electrical
- Electronics technology
- Enclosures, racks, cabinets & panel products
- Industrial electronics
- Interconnection
- Optoelectronics
- Passive components
- Power electronics/management
- Production technology/manufacturing
- Programmable logic
- Switches & relays
- Telecoms, wireless, IoT, RF & microwave
- Test & measurement
- And more ...

Editorial content

- Insights into the latest electronics and communications trends
- Expert opinion on industry challenges and developments
- Round-table discussions
- Best practice across products and solutions
