

# Access & Identity Management Handbook 2020

print  
online  
NEWS BRIEFS

South Africa's only publication providing in-depth editorial coverage of physical and logical access control and identity management trends, opinions, best practices, case studies and products.

The Handbook includes biometric selection guides, access control selection guides and a directory of access and identity management manufacturers, suppliers and service providers. Published in print and online plus all editorial is sent out via four Access & Identity Management Handbook news briefs.
